ANGELICA ANGRESS

Tel Aviv, Israel | +972-54-544-3223 | angelica.avm@gmail.com

A delivery and results oriented Team Leader with 8 years of experience in leading multidisciplinary engineering teams, focusing on collaboration with cross-functional disciplines within and outside the team.
Some might call me a "Jira wizard".

Experience

2018 - PRESENT | SimilarWeb | Junior FrontEnd Developer
Developing, refactoring and fixing web components, mainly in React and Typescript, some in AngularJS legacy code.
- Worked with Yarn, Grunt, Webstorm, Github Desktop, Continuous Integration pipelines in Gitlab. Deployed to sandbox and production environments using TeamCity.

2015 - 2018 | SimilarWeb | Scrum Team Leader & Web QA Engineer
Established and led scrum teams. Managed project lifecycle from concept to launch, delivering measurable results.
Implemented work procedure foundations turning a newly built team into result-oriented pioneers adapted by other teams.
- Managed feature and tech debt project deliveries within sprint constraints to meet quarterly targets.
- Structured roadmaps by breaking down complex projects into prioritized, estimated, and deliverable tasks using Scrum and Kanban boards in Jira.
- Monitored project progress and facilitated planning and retro meetings.
- Detected roadblocks, advised solutions and optimization of procedures.
- Worked closely with all scrum team members (Product Manager, Designer, Backend, Frontend, Automation) as both Scrum Leader and QA engineer.
- Executed manual web testing of GUI, functionality, using various web-browsers and dev tools. Constructed STPs based on product requirements covering sanity, regression and end case testing for automation conversion after deployment to Production.

2011 - 2015 | Viber Media Inc. | QA Team Leader
Built and managed several platform teams in Israel and abroad, adjusting together with the company's quick paced growth from startup to corporate.
- Ran status and work plan meetings, involved in product defining meetings.
- Worked in Agile and Waterfall methodologies.
- Risk management with multi-disciplinary teams and provided solutions to relevant parties.
- Worked on cross platform features (Android / iOS / Desktop).
- Integrated automation into workflow.

2010 – 2011 | Viber Media Inc. | Mobile QA Engineer
Defined and developed the QA infrastructure from the ground up.
- Wrote STPs and executed manual tests for iOS and Android platforms.
- Tested areas - cross platform communication, client / server logic, performance, functionality, network, GUI, hardware (HW buttons, battery consumption, device compatibility), storage, memory, interruptions, native compatibilities, backward versions compatibility.

2009 - 2010 | iMesh, MusicLab | Technical Support

Skills and Expertise

- **Project Management** - Jira boards (Scrum, Kandban, customized dashboards), sprint statistics and reports, work procedure documentation and training guidelines. Gantt charts using TeamGantt.
- **Frontend Development** - HTML, CSS, Javascript, React, AngularJS, Typescript, Grunt, Webpack, Webstorm, Gitlab, TeamCity.
- **QA** - software and web application testing. iOS, Android, desktop platforms. TeamCity deployments and automation runs. STPs documented in Enterprise Tester and excel. Use of ADB tools.

Education

Year	
2018	**FrontEnd Development -** Netcraft Academy
2014	**CMAP - Mobile App Testing** - ITCB, Sela University
2012	**Management Development** - Dr. Dvora Geller, Organizational consulting
2009	**B.Sc. Computer Science -** Clark University, Israel branch

Languages

- **English** - Mother tongue
- **Hebrew** - Bilingual proficiency
